

Sparx Maths Guide

Your Maths homework will be on Sparx Maths.

Access Sparx at the following address [Sparx Maths - Home](#)

Homework is set for everybody on a **Monday**.

All compulsory questions must be completed correctly with 100% achieved in the back of the child's maths book.

Homework Standard

Homework should be in the back of their maths book working down columns like they do in lesson.

Working in black or blue pen, answers should be marked in purple.

Date the work of when it is completed.

Full working out and answers.

Bookwork checks

1. Write down the code before you start the question, then write down your working out and answer next to the bookwork code
2. To pass the bookwork check you must enter the correct answer for the bookwork code
3. If you fail, you get more bookwork checks

Parents

Please assist your child by supporting / assisting them to achieve the correct answer. A video is available to provide support with each question (click the video link button located at the bottom centre of the screen)

Please don't just give your child the correct answer, this may result in an increase in difficulty level of questions, as the computer may think your child has mastered that concept / skill level

A parent guide video on how to use Sparx maths is available on your child's Sparx homepage

Homework Support

Homework club runs every Wednesday in GT3 where they can do their homework. If they are struggling with the homework, please get them to speak to their teacher before the deadline to ensure they can get help to answer all their questions.

Password reset

If your child forgets their password, they must request a password reset. This will email their teacher with this request. Once the teacher has reset their password, they must then click the link at the bottom saying New Sparx User. This will ask them to fill in their details of name and date of birth which will allow them to get their username and set a new password for themselves.
